INTERNSHIP

**Slash Mark | IT / Computers - Software
Web Developer**

15 Jun, 2024 - 15 Aug, 2024

As a Full-Stack Developer, I bring extensive expertise in building and optimizing web applications using the MERN stack (MongoDB, Express, React, Node.js). My background in real-time communication technologies, especially WebSockets and Socket.IO, has enabled me to develop highly responsive and interactive applications. I am also proficient in using Redis for efficient caching and message brokering. I excel at creating seamless front-end interfaces with React, coupled with robust back-end services using Node.js, Express.js and node.js.

TECHNICAL SKILLS

- **Programming Languages:** HTML, CSS, Javascript, C++, Java, SQL.
- **Technologies :** MongoDB, ReactJS, Express JS, NodeJS, Tailwind CSS, Next.js, Git, Github.
- **Course Work:** Operating System, Data Base Management, Data Structure & Algorithms.
- **Languages:** English, Hindi.

EDUCATION

Teerthanker Mahaveer University, Moradabad
B.C.A. - Computer Applications

Aug 2022 - Jun 2025

Government Industrial Training Institute, Fatehabad, Agra
Diploma | Diploma - welder | UP Board

Sept 2021 - Aug 2022

Siddhant raj inter college
12th | UP Board
10th | UP Board

Jul 2020 - Apr 2021
Jul 2018 - Apr 2019

PROJECTS

Movie Blaze

- User-friendly web application for searching and viewing movie details.
- Displays essential information such as ratings, critic reviews, and summaries.
- Aggregates real-time data from external movie databases for reliable information.
- Simplifies the movie discovery process for users.
- Developed using HTML, CSS, and JavaScript.
- Focuses on delivering a lightweight and responsive user experience.

Weather App

- Developed a responsive web application to search real-time weather information by city name.
 - Utilized HTML, CSS, and JavaScript for building the frontend and fetching data from WeatherAPI.
 - Displays city name, local time, and temperature with error handling for invalid city names.
 - Implemented a user-friendly interface with modern design elements.
 - Deployed with best practices for accessibility and responsiveness.
-
